

Vaccine Rollout: How Countries Compare

TBT buttonwoodtree.net/index.php/2021/03/04/vaccine-rollout-how-countries-compare/

March 4, 2021

Ever since the arrival of the pandemic, there have been efforts towards creating a suitable vaccine. Since the virus is showing no signs of abating, the calls for vaccine candidates are getting more and more urgent. Fortunately, the life sciences industry has put a lot of effort into developing various types of vaccines. The news is reporting quite a few likely candidates from different countries.

While perfecting these vaccines and finding the most universally effective option will take time, several countries are going ahead with their vaccination drives. Some have started vaccinating their first responders, healthcare workers, the elderly, and others who are most in need of such a breakthrough. Oth...
